# THE DISINFORMATION, PROPAGANDA, REVISIONISM & CENSORSHIP COLLECTION

edition 2 (10-2016):

*all the books they still don't want you to read about matters as diverse as governmental misinformation & propaganda, inappropriate censorship, atrocious cover-ups and unsolved murders.*

The contents of this torrent still contains to a large extent the same set of ebooks, audio files and films about how society has been misinformed or has misinformed itself to either carry out atrocities or cover-up atrocious blunders. These include contrasting accounts of various issues such as the Iraq war and the crimes of the Bush family.

For those wanting to understand the abuses made by the government, I've included theoretical work by authors who I consider essential; but sometimes learning truth is both a revelation and a heavy burden. Chomsky's frank description of the disturbing relationship between how our governments are more accountable to the extremely wealthy than they are to its majority, is eye-opening but quite depressing.

I've also included Mike Moore's work which, although not taken seriously by many because of his 'in your face' comic writing style, many of the points he makes are equally (or sometimes more) valid than academics commenting on similar matters (and in contrast to Chomsky's taxing elocution, they're fun to read).

This collection is dedicated to those people who question political propaganda and make their own decisions about what the truth is. In other words, it's dedicated to you.

I will update this collection every time I find new works that add to my knowledge of disinformation and the search for truth. If you have any advice or actual ebooks/recordings to add to this collection, please send them to:

## WHAT'S NEW ... WHY UPDATE?

Many of the books within the DISINFORMATION collection currently still downloadable unfortunately have titles that are simply too long for windows to read. This has made the task of downloading the entirety of this torrent essentially impossible for almost everyone and thus a completely frustrating endeavour. I apologise to all those who have tried but failed to download this large mass of controversial, interesting and sometimes frightening documentation but I hope this new collection will set things right.

The first task was to reorganise the material and shorten the titles where necessary. The positions of the items within the collection were checked individually and replaced and a number of changes were made to the folders and their contents. The collection now consists of 9 major sub-headings. A list of these headings follows, which includes a descriptions of any major changes or additions made :

### [1] PROPAGANDA

### [2] CENSORSHIP

This section includes an additional selection of 120 works of literature which through the years have been censored or banned for various reasons.\*

### [3] HISTORY & REVISIONISM

### [4] POLITICS & THE ECONOMY

Many of the books and articles in this section are by (or about) Noam Chomsky who is particularly vocal in this particular area. For this reason, a separate archive for works by Chomsky has been included, and this archive includes for the first time the important work *Manufacturing Consent* which Chomsky co-authors with E. Hermann. A few words should also be said about the sub-heading 'political correctness'. This is a contentious area of discussion and involves the patterns of behaviour applied within society which are based on a perception of the 'right' way in a predetermined moral or ethical sense. This has its roots in contemporary psychology and is problematic because both sides of the argument have merit but also disturbing flaws as highlighted in these articles.

\*The next edition will include two important works on censorship, the first concerning the censorship of horror comics and the second concerning the British political censorship hacksaw driven at Cronenberg's controversial filmisation of Ballard's 'Crash'.

## [5] DISINFORMATION

Includes three new additions, *Everything You Know About Sex is Wrong*, *The Disinformation Encyclopaedia of Transhumanism* and *Everydata The Misinformation Hidden in the Little Data*.

## [6] RELIGION & ATHEISM

## [7] CONTROVERSIES & COVER-UPS

## [8] TERRORISM & THE STATE

'Globalisation, Terrorism & the State' was a sub-folder of [7] CONTROVERSIES & COVER-UPS. This edition, however, sees globalisation and capitalism moving to [4] POLITICS & THE ECONOMY, leaving 'Terrorism & The State' to form its own folder.

## [9] FILMS & AUDIO

This sub-heading used to consist only of films. Now I've gathered together all audio material taken from DVDs, podcasts and other multimedia sources. The purpose of this is firstly to give the downloaders the chance to cancel this particular section out if they want a quick download. I'm also planning to upload torrents which include either only the ebooks or only the films, audio and other material, although the film material will be more extensive and include more documentaries.

In addition to the contents of these folders, there is this PDF document to accompany it and a TXT document containing information useable as metadata. Finally there is the cover graphic which includes covers taken from important books within the collection.

ZIZBILIT is a taken from a *Disfodish* intransitive reflexive verb: ZIZBILET. Without the reflexive prefix, 'BLIZET(OT)' is a transitive verb and can be used to refer to instruments or toys, i.e. Zätit nidiš blizetìs Dišflôtit ([it is so that] + [he] + [plays] + [flute]. With the addition of the ZI- prefix, the word becomes reflexive, meaning that the noun has three major meanings:

- [1] the act of playing oneself (i.e. one's music);
- [2] the act of playing the fool, making jokes at one's expense;
- [3] the act of self-pleasure (i.e. masturbation).

So what is *Disfodish* and why have I used one of its words as my profile title? It is an entirely fictive language spoken in an entirely fictive country. The relatively new study domain referred to as "Fictive Protolinguistics" is about studying the creation of artificial languages in an effort to better understand how language develops. What better place to teach this subject than at the fictional State University in Votstat; capital of the small unaligned province generally referred to as as 'Dišfodat' which also means simply 'this place' positioned somewhere between Germany and Belorussia.

I use this fictive language as part of my work as an experimental film-maker to question the efficacy of communication and the limitations it can put on human experience. As a composer I also explore the relationship between music, language and communication. The language and its deliberate artificiality also allows me to step back and 'play the fool'.
